MATRIX DIRECTORY

DOMINION BUREAU OF STATISTICS

## FOREWORD

The matrix titles, sources and notes included in this Directory cover all time series in the CANSIM base as of the date of the printout. Supplements will be released as the CANSIM base is expanded.

Descriptive detail given for a matrix (roughly equivalent to "table"), used to identify the series in the matrix, includes the frequency and units, the base in the case of index numbers, whether seasonally

unadjusted or adjusted, etc. Where a major revision has occurred but the historical unrevised series continue to be of interest, these may be included with a "T" for "terminated".

For each matrix there is available at cost of reproduction a CANSIM Series Directory which provides detailed information for all series included. A sample follows:

CANSIM SERIES DIRECTORY
